Figure three: Neighbourhood assessment triangle (Lloyd, Owens and Firmin, 2019)

5. Places and Peer/Sibling Groups in the locality requiring preventative approach (identified following incident/from data modelling/local intelligence)
  - a.
  - b.
6. Creative Solutions discussion
  - a.
  - b.
7. AOB

- Consider switching agenda items 3 and 5 weekly to ensure balanced focus
- Consider use of a systemic approach. Set time for each section and how long everyone can contribute for. Stick to it so people get used to process. Use Signs of Safety mapping with the contexts triangles to avoid generalised comments.
